Sustainability Requirements
Applicable to Vertical and Horizontal Projects

Criteria and Reporting:

(1) UFC 1-200-02 High Performance and Sustainable Building Requirements, most current version: https://www.wbdg.org/ffc/dod/unified-facilities-criteria-ufc-1-200-02
   a. Review section 1-4 UFC Applicability; confirm eligibility in its entirety
   b. For “occupied” buildings, 100% of the UFC requirements must be addressed as written
      i. Some requirements may be N/A in specific circumstances - see paragraph 4-2
   c. Apply threshold requirements in Table 1-1 (note that this table is from UFC 1-200-02 with Change 4, dated 1 Oct 2019. A/Es must confirm if the UFC has been updated, and must apply the most current version for all projects).

d. Horizontal infrastructure and utilities projects: UFC 1-200-02 outlines requirements for enclosed, occupied buildings. Several portions of the requirements may also apply to horizontal projects and can be incorporated and tracked to contribute to Tyndall’s overall sustainability goals. Applicable UFC 1-200-02 paragraphs may include, but are not limited to, the following:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Thresholds</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chapter 1</td>
<td>All design and construction activity(^1); and assessments of existing buildings(^4) (\geq 10,000) GSF./4/</td>
</tr>
<tr>
<td>Chapter 2</td>
<td>All design and construction activity(^1)</td>
</tr>
<tr>
<td>Chapter 3</td>
<td>Assessments of existing building assets(^4) (\geq 10,000) GSF./4/</td>
</tr>
</tbody>
</table>
| Chapter 4   | 1. Each new building \(\forall \geq 10,000\) GSF./4/\(\forall 1\)/1/  
|             | 2. Each renovation\(^3\) in an existing building \(\forall \geq 10,000\) GSF./4/, with \(\forall 1\)\(total\)/1/ cost greater than \$3M\(^5\) and 50% ERC\(^6\), and with comprehensive replacement\(^3\) (include additions that are part of the building renovation)  
|             | 3. Assessments of existing building assets \(\forall \geq 10,000\) GSF./4/\(\forall 1\)/1/1/1/ |
|             | 1. Each new building \(\forall \geq 10,000\) GSF./4/, with construction cost greater than \$3M\(^5\), unless Component policy is more stringent\(\forall 1\)/2\(\forall 2\)/.  
|             | 2. Each renovation\(^3\) in an existing building \(\forall \geq 10,000\) GSF./4/, with \(\forall 1\)\(total\)/1/ cost greater than \$3M\(^5\) and 50% ERC\(^6\), and with comprehensive replacement\(^3\) (include additions that are part of the building renovation).  
| Appendices  | All projects as applicable. |
i. 1-8 CYBERSECURITY
ii. 2-2.1.1 Integrated Planning
iii. 2-3 OPTIMIZE ENERGY PERFORMANCE
iv. 2-4 PROTECT AND CONSERVE WATER
v. 2-6.1 (except 2-6.1.3) Environmentally Preferable Products
vi. 2-6.2.2 Waste Diversion
vii. 2-7 ADDRESS CLIMATE CHANGE RISK

(2) Compliance Reporting:
   a. Report using the AF Sustainability Requirements Scoresheet per item (3), listed below.
   b. Report qualifying buildings meeting the TPC thresholds in (1) b. to AFCEC per item (4), below.
   c. Report buildings not meeting the UFC applicability thresholds to 325 CE, for inclusion with installation totals. [contact/email address TBD; submit inquiry within individual projects as needed to determine proper authority]
   d. Report horizontal projects’ applicable data to 325 CE, for inclusion with installation totals. See (3) b.ii, below.

(3) AF Sustainability Requirements Scoresheet:
https://www.wbdg.org/ffc/dod/tri-services-sustainability-program/tracking-reporting;
   a. Separate scoresheet is required for each building or horizontal project

(4) DB, RFP development and post award; DBB, design and construction: Send tracking and reporting to AFCEC.CF.SustainableRpt@us.af.mil at the following project milestones:
   a. All RFP and design reviews - AF Sustainability Requirements Scoresheet (in native file format) and Design Analysis
   b. Third party certification (TPC) design review complete - revised AF Sustainability Requirements Scoresheet and TPC design compliance report
   c. Construction complete - revised AF Sustainability Requirements Scoresheet, final Sustainability eNotebook, and DD1354
   d. TPC complete - final AF Sustainability Requirements Scoresheet and TPC final compliance report

Related Criteria and References:

(2) UFGC 01 33 29.05 20, Sustainability Reporting (for DB) -
https://www.wbdg.org/ffc/navy-navfac/design-build-request-proposal/standard-template

(3) Energy compliance, 10 CFR 433 (for DB) - During RFP development, a solution will be identified that achieves compliance with 10 CFR 433; the post-award design solution can vary but only if the solution is life-cycle cost effective (LCCE) and achieves a higher energy efficiency.

(5) UFC 3-440-01, Facility-Scale Renewable Energy Systems,
https://www.wbdg.org/ffc/dod/unified-facilities-criteria-ufc/ufc-3-440-01
Screening tools mentioned in the UFC can be used to determine if photovoltaic (PV) and solar
domestic hot water are LCCE; provide details if renewable energy requirements will be met
using an installation approach.
